

Torrance Herald Circulation Increases

31%

In The Past 60 Days

This is the most conclusive proof of the rapid growth of this community. The first thing a new resident does in coming to a town is to subscribe to the home town paper.

If you have anything to sell to the people in this section of Southern California, you can reach them all by placing an advertisement in this paper.

Nearly every merchant and business man in Torrance, advertises in the Herald. If you are new in the City, telephone for an advertising representative to call and help you with your advertising.
